

## MYNUTE SYSTEM BOILERS

- SEDBUK Band D
- Three models available with choice of 12kW, 16kW or 20kW heat output
- Simplified installation and commissioning
- All major system components built-in - pump, expansion vessel, safety valve, automatic air vent, automatic by-pass - saving space, installation time and material
- Simple servicing with all components in one place
- For use with sealed central heating system, no need for feed and expansion tank - dry loft possible
- Optional built-in programmers available
- Compact dimensions with attractive Italian designed casing
- Versatile concentric and twin flue options available
- Built-in anti-cycling control
- Easily linked to other Vokèra boilers for larger output modular applications
- Backed up by Vokèra's industry leading service and technical support
